

Third Level Access Scheme

THE Higher Education Access Route is now available to students attending all secondary schools in Ireland, according to new Louth VEC member, Cllr James Carroll.

"Up until now the Higher Education Access Route has only been available to students attending DEIS schools but it is now available to students in the 730 secondary schools around the country,"

"This year for the first time

school leavers who wish to apply for the scheme can do so online as part of the CAO application process. Applications open from 1st November and a dedicated website www.accesscollege.ie has also been launched to provide information about the scheme." "I am delighted that this scheme is now open to all students. I hope that it will benefit many students from Louth in years to come", added Cllr Carroll.
